01 · FOUNDATIONS

Warm, simple, and human.

Soft color, plenty of white space and clear words. The site should feel friendly and personal — like a clinic that knows your name.

01

Calm first

Soft tints, white space, one accent. Strong color only for urgent help.

02

Clean and simple

Thin lines, gentle corners and soft shadows; no decoration that doesn't help.

03

One task per step

Specialty → doctor → time → details → confirm, with progress shown.

04

Accessible for all

WCAG 2.2 AA, 48px touch targets, large readable text for older patients.

03 · BOOKING FLOW & RULES

Five steps, under two minutes

Progress reads “Step 3 of 5 · Pick a time”. Back never clears what the patient typed. Show availability before asking anyone to sign in.

1

Find care

Search by doctor, specialty or symptom. Emergency link always visible.

2

Choose doctor

Cards show next date, fee and visit type. Filter, don’t paginate.

3

Pick a time

Open on the earliest free day. Hold the slot 10 minutes and say so.

4

Your details

Only what’s needed. “Myself” or “Someone else”. Guest booking allowed.

5

Confirm

Summary, add to calendar, directions, reschedule or cancel links.

✓ Do

Keep most of each screen white; use berry for the one main action.

Write like a kind nurse: “Your appointment is Tue, 4 Nov at 9:30 AM.”

Show total cost and HMO coverage before the patient confirms.

Use real, warm photos of your staff and spaces, with consent.

✕ Don’t

Add bright accents, gradients, shadows or decorative patterns.

Use medical jargon (“OPD consult”) without a plain explanation.

Force sign-up before showing available times.

Use countdowns or fake scarcity, or hide the cancel link.

Accessibility

Text contrast ≥ 4.5:1.

Targets ≥ 48×48px, 8px apart.

Keyboard and screen reader for every step.

200% zoom; respects reduced motion.

Status = color + icon + word.

Responsive

Mobile-first at 390px.

Hero stacks: text above image.

Nav collapses to a menu button.

Main action sticks to the bottom.

Tap-to-call on every phone number.

Trust & privacy

Show license number and specialty board.

Explain why each sensitive field is asked.

Link the privacy notice at the details step.

Never show symptoms in notifications.

Confirm by SMS with a reference code.

Care when you need it, booked in minutes.

See real availability for [NUMBER] specialists across our clinics. No account needed.
